The State of Alabama only allows the sale of Domestic Industrial Hemp Seed with a tetrahydrocannabinol (THC) concentration of 0.30% or less based on dry matter and adjusted to measure of uncertainty.

Currently the Alabama Hemp Program requires for purchases from other states within the United States to attach at a minimum the following documents:

- Documentation verifying source as a legal hemp operation in the state of origin.
- Growing season test results indicating the variety, and the name, address, email, and telephone number of both the lab and the seed source.

We strongly encourage Hemp Seed Dealers to either include this information with their seed sales or make it available to the grower upon request as well as including a minimum of 400 extra seeds for regulatory testing.

Domestic Industrial Hemp Seed Dealers are subject to all laws, requirements and penalties of the Alabama Seed Law Code of Alabama Title 2, Chapter 26 and Alabama Administrative Code 80-11-1 and 80-11-2.

NOTE: OTHER REQUIREMENTS MAY BE NECESSARY AT ADAI'S DIRECTION.
