

Poultry Entry Requirements

- All poultry coming into Alabama must be tested negative for Salmonella pullorum and Avian Influenza within 21 days before entry.
- If the birds originate from a flock that is participating in the National Poultry Improvement Plan (NPIP), Salmonella P/T and AI clean programs, these birds can move using the NPIP Form 9-2 or Form 9-3.
- Non-NPIP poultry coming into Alabama must be accompanied with a Health Certificate written by an accredited veterinarian with results of the Salmonella P/T and AI tests, including date of test on the Health Certificate.
- Transport boxes, crates or carriers must be clean and allow for proper care of the birds in transport.

Please contact the office of the State Veterinarian at 334-240-7253 with any questions.
