

Pre-Harvest Inspection Requirements

Growers Are Required to Provide the following Documents to the ADAI Inspector at the Time of Pre-Harvest Inspection and Sampling:

- 1) A list of all varieties planted that contains
 - A) Planting dates for each variety
 - B) Varieties and plots that will be harvested in next 14 days
- 2) A labeled Planting Diagram (See below)
- 3) Seed/Propagule purchase invoices and shipping documents
- 4) Application Records for any agricultural chemicals used

IMPORTANT NOTE: If the documents above are not available when the inspector arrives to conduct your scheduled at-harvest inspection/sampling, the inspector will cancel the inspection/sampling and depart. After you have assembled the above information and documents, you must then submit another Harvest/ Destruction form giving another 14-day notice, thus delaying your harvest.

GROWING SITE—Outdoor Field, 5 acres, 4 Varieties Planted

Brilliance planted: 6-23-19
T1 planted: 6-24-19

Cherry Wine planted: 6-25-19
BaOx planted: 6-26-19
