FOR IMMEDIATE RELEASE - March 22, 2014 - The Minnesota Department of Agriculture (MDA) is alerting consumers to avoid eating certain peanut butter, cheese, salsa, and spreads produced by Parkers Farm Acquisition, LLC of Coon Rapids, Minnesota, after state agriculture department product sampling determined some of the finished products to be contaminated with *Listeria monocytogenes* bacteria.

There have been no reports of illness associated with consumption of the products. Parkers Farm Acquisition, LLC is cooperating with the MDA investigation and has issued a voluntary recall of all products with the "sell by" dates listed below. Consumers who have purchased these products are urged to return them to the place of purchase or discard them.

The list of recalled products includes:

- 16-ounce Parkers peanut butter in square plastic containers (tub with snap-on lid), including creamy, crunchy, honey creamy and honey crunchy varieties with a sell by date before 3/20/2015;
- 34-ounce Parkers peanut butter in round plastic containers (tub with snap-on lid), including creamy and crunchy varieties with a sell by date before 3/20/2015;

- 12-ounce Parkers spreads in round or square plastic containers (tub with snap-on lid), including jalapeño and pimento varieties with a sell by date before 9/20/2014;
- 8-ounce and 16-ounce Parkers cold pack cheese in round plastic containers (tub with snap-on lid), including sharp cheddar, bacon, onion, smoked cheddar, Swiss almond, horseradish, garlic, port wine, and “Swiss & cheddar” varieties with a sell by date before 3/20/2015;
- 16-ounce Parkers salsa in round plastic containers (tub with snap-on lid), including hot, mild, garlic, and fire-roasted varieties with a sell by date before 7/20/2014;
- 10-ounce Parkers cheese balls or logs (plastic overwrap), including sharp cheddar, port wine, ranch, and “smokey bacon” varieties with a sell by date before 3/20/2015;
- 10-ounce Happy Farms cheese balls (plastic overwrap), including sharp cheddar and port wine varieties with a sell by date before 3/20/2015;
- 16-ounce Happy Farms cold pack cheese in round plastic containers (tub with snap-on lid), including sharp cheddar and port wine varieties with a sell by date before 3/20/2015;
- 8-ounce Central Markets cold pack cheese in round plastic containers (tub with snap-on lid), including sharp cheddar, port wine, horseradish, and Swiss almond varieties with a sell by date before 3/20/2015;
- 12-ounce and 20-ounce Hy-Top cheese spread in round plastic containers (tub with snap-on lid), including pimento and jalapeño varieties with a sell by date before 9/20/2014;
- 8-ounce Amish Classic cold pack cheese in round plastic containers (tub with snap-on lid), including sharp cheddar, port wine, and Swiss almond varieties with a sell by date before 3/20/2015;
- 14-ounce Say Cheez beer cheese in round plastic container (tub with snap on lid), including regular and hot varieties with a sell by date before 3/20/2015;
- 10-ounce Win Schuler original variety cheese balls or logs (plastic overwrap) with a sell by date before 3/20/2015;
- 8-ounce, 12-ounce, and 14-ounce Bucky Badger cheese spreads (tub with snap-on lid) including cheddar, port wine, bacon, garlic, horseradish, jalapeño, and Swiss almond varieties with a sell by date before 3/20/2015; and
- 5-pound foodservice products including cold pack cheese foods, cheese spreads and peanut butter with a sell by date before 3/20/2015.

The products are distributed nationwide under the Parkers Farm, Parkers, Happy Farms, Central Markets, Hy-Top, Amish Classic, Say Cheez, Win Schuler, and Bucky Badger labels. These products were sold at several retail stores including but not limited to Hy-Vee, Cub, Rainbow, Byerly's, Lunds,

Target, Whole Foods, Price Chopper, Nash Finch, Costco, ALDI, Wal-Mart, and Brookshire stores. Consumers with questions can contact the company at (800) 869-6685 or the website: www.parkersfarm.com (<http://www.parkersfarm.com>).

Consumption of food contaminated with *Listeria monocytogenes* can cause listeriosis, an uncommon but potentially serious disease marked by fever, severe headache, neck stiffness, and nausea. Healthy people rarely contract listeriosis, but it can sometimes cause fatal infections in infants, the elderly, and those with weakened immune systems. Listeriosis can also lead to miscarriages and stillbirths in pregnant women.

Any consumers who believe they may have become ill after eating the products should contact their health care provider.
