Instruction Sheet for Submitting Updated, Amended and Revised labels.

Product labels containing the following are not considered updated, amended, or revised, as they are considered new products and should be submitted as such with new product applications, along with registration fees.

- **Any changes to the original registered product / label (name or logo)**
- **Any change to the company name / ownership (including LLC, LTD, INC, etc.)**
- **Any changes to the ingredient(s) (active and/or inert)**
- **Any changes to the signal word/toxicity class**
- **Changes in classification between restricted and general use.**

Any changes mandated by EPA do **not** require new registration when appropriate documentation is provided.
