

ALABAMA DEPARTMENT OF  
AGRICULTURE & INDUSTRIES

1445 FEDERAL DRIVE - MONTGOMERY, ALABAMA 36107-1123

Rick Pate  
Commissioner

**Record of Ginseng Harvest Season Report**

Make additional copies as needed

Ginseng collectors must keep a precise record of the location of all Ginseng collections and must have these records certified by the Commissioner of Agriculture and Industries for any Ginseng sold after December 31.  
A copy of these records should be provided to the Dealer when sold.

| Date of Harvest | County | Best address or location of harvest site | Weight * |
|-----------------|--------|------------------------------------------|----------|
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
|                 |        |                                          |          |
