Sweet Potato Products Being Produced ☐ SEED ☐ PLANT ☐ TABLE STOCK *

*Address of Storage Facility: _____ City: _____

Source of Sweet Potato Seeds or Slips if different than yourself: _____

To produce certified sweet potato products, in accordance with chapter 80-10-2, code of Alabama (1975), you must apply for certification prior to planting but no later than February 1st of the certificate year. You are required to pay a $100 registration fee and $5 per acre inspection fee. Applications received after March 1st must include a 15% late fee applied to the entire amount.

Please note that storage, plant bed and field inspections, which are necessary to complete the certification process, will not be conducted until we receive your completed application and all fees prior to when those inspections should be performed.
In addition, sweet potato tags must be used for all sweet potato products sold. They are available from this office for $10 for a pack of 500 tags, plus any mailing or shipping charges. Call 334-240-7229 to request tags

Please list all sweet potato varieties you are requesting certification for, only these varieties will be certified.
(Include additional varieties on a separate sheet of paper if necessary)
